

Name of Machine	Magnetic Separation of minerals facility			
Make	S.G. Frantz Co., New Jersey		Model	LB-1, Isodynamic Magnetic Separator
				
Specification				
LB-1 Magnetic Barrier Laboratory Separators exploit either paramagnetic or diamagnetic properties to separate dry materials according to magnetic susceptibility. They deliver more than 3.5 times the magnetic separating force of the Isodynamic® Separator, provide improved particle feed and transport systems, and allow the separation to be observed.				
Working principle:				
Material is fed into one end of the magnetic field of an electromagnet having two long pole pieces (with a long narrow air gap between them). Material travels the entire length of the pole pieces, with the more strongly paramagnetic particles being urged toward the narrow side of the gap. The grains are intercepted by a dividing edge which directs the two fractions into separate containers.				
Application				
Mineral separation from assemblages of minerals based on their magnetic susceptibility.				
User Instruction				
Sample should be in powder form				
Contact Person				
In-Charge	Dr. Anupam Sharma (0522-2742974); <i>Email anupam110367@gmail.com; anupam_sharma@bsip.res.in</i>			
Staff:	Dr. S. N. Ali (0522-2742914), Email: snawazali@gmail.com ; Dr. P. Morthekai (0522-2742914), Email: morthekai@gmail.com			
charges				
Instrument/ Analysis	Govt. Organization		Private sector/ Industry	Remarks (if any)
	(University/Research Institutes)	Student		
Magnetic mineral separation)	300.00	200.00	500.00	The grain size should be < 500 µm
Guideline				
<ol style="list-style-type: none"> 1. The analytical data/spectra provided cannot be used as certificates in legal disputes. 2. Service charges (GST) will be payable in advance (Draft/RTGS/NEFT) in favour of “The Director, BSIP, Lucknow”. Payable at Lucknow 3. Separate samples should be sent for different analysis. Samples will not be analysed until payment is received. 4. In case of prepared samples, the user must specify the procedure that how the sample was prepared (complete methodology). 5. In all correspondence related to analysis, our reference number must be mentioned. 6. Individual Scientists and Research fellows should send their application and samples through their project head. Discount in analysis charges for research fellows of universities/institutes will be decided by the Director in consultation with respective lab. 				

7. Interpretation of data/spectra will NOT be done.
8. It is mandatory for user to acknowledge the facility in their research work and communicate the same to the respective laboratory and the Director, BSIP, Lucknow for onward communication to DST, New Delhi.
9. For Lab visit, it is mandatory to take prior appointment from Director, BSIP before your visit. The application should be send through department/Senior official of institution/Company. No deviation will be allowed for the timings.

To be filled in by the user while submitting the form

Job No as ASE CF

Date of submission:

(Sample Information Form)

REQUISITION FORM

BIRBAL SAHNI INSTITUTE OF PALAEOSCIECES, LUCKNOW

53, University Road, Lucknow, Ph. 0522-2740008, 2740399

(ASE Central Facility)
